

Mayline F

Elastic self-sealing liquid for solar heating systems

Elastic self-sealing liquid for solar heating installations with daily leakage of up to 15 litres

Mayline F seals leaks of up to 15 litres per day. The self-sealing liquid is based on the principle of providing a mechanical seal from the outside. Mayline F only functions in the presence of oxygen and is suitable for all materials currently in use (synthetic and metallic). The product provides the seal with a certain elasticity and fully compatible with glycols. The sealing is done in ca. 14 days.

code	package
5/MYF	5 l canister
1/MYF	1 l (pack of 12 bottles)
2/MYF	1 l (pack of 2 bottles)

Mayline F
Liquido autosigillante per impianti solari termici
 Liquido autosigillante elastico per impianti di solari con perdita giornaliera fino a 15 litri

ATTENZIONE
 Contiene Sodio Silicato.
 Indicazioni di pericolo: H229 Pericolo grave irritazione cutanea. H332 Irritazione cutanea. H335 Può irritare le vie respiratorie.

Consigli di prudenza
 P211 Evitare di respirare la nebbia e i vapori.
 P223 Evitare di respirare la nebbia e i vapori.
 P260 Indossare guanti protettivi e proteggere il viso.
 P312 In caso di inalazione, consultare un medico.
 P330 ANTI-URTO: usare e trasportare con cautela e in luogo ben ventilato.

Instructions for use

Quantify the system's contents. Clean the system with Mayline Solar before.

Bleed the pumps well after inserting the liquid! Remove or bypass all the filters and screens. Bleed the re-circulation pumps well and leave them in function. Use a loading pump to insert the necessary amount of self-sealing liquid. Bleed the re-circulation pumps again.

The system must remain in function for at least 4 hours at maximum temperature. The Mayline F may be left inside the system.

The sealing is done in ca. 14 days.

Important note

Shake the container well before use. Mayline F can be mixed with glycols and antifreezes but NOT with other chemical products. The self-sealing liquid may be left inside the system.

Protect the product from frost.

Mixing proportions

1-2% (1-2 litres of Mayline F for every 100 litres of water).

ATTENTION! THE PRODUCT MUST NOT BE OVER OR UNDER DOSED.

Security instructions

In the event of eye contact, rinse eyes thoroughly with much water and consult a doctor. In the event of skin contact, rinse well with water. Wear gloves and protective eyewear. Use water to immediately remove the product from objects such as tiles, flooring, wash basins, etc. Keep out of reach of children!

Disposal

For information concerning the disposal of effluent and liquid waste, please consult the corresponding safety data sheet.
